Petitioner/Contestant hereby submits this Motion to Deny Motion's to Dismiss and states:

I don't know how anyone can count the 16 votes registered to the 600,000 a win fair and square, when the general public was only informed at the polls of the **one candidate** in this contested contest. That seems a huge denial of fair and square." Bob Bennett has to be named in this Contest of Election as he is the major benefactor of the irregularities of the contest. Cody Judy is the only contestant in the race who has issued a complaint of the foul or unfair contest which just happens to violate every voters choice. It seems a denial of the facts to say " I won this election fair and square" when the irregularities contributed effectively to the elimination of a legal contestant at the dawn of the first vote cast in the contest or race . Bob Bennett affectively created a false claim by claiming a victory that was falsely based on rules of the contest, mounting to this action. Claiming victory in a race that didn't

affectively happen is neither the responsibility of the Contestant or Contestee. Each deserved and was qualified to race according to rules of the contest qualifications for office. The contestant was not allowed a fair start on election day. How can victory be claimed when the race didn't happen with voters informed of the choice of Contestant Cody Judy by the Elections office? The Election's Office felt dutiful enough in their responsibilities to inform the voters of one choice in this contest and cheated the other candidate by failing to post his name at polling places while knowing full well he was a candidate. That is a premeditated coercion of the voters choices. What is right about that? Nothing.

As Ohio lawyers intended the discredited election to the Ohio Supreme Court with a required 25 voters on record, Cody Judy also filed the petition of 30+ voters according to law in the contest of elections. *" If they wanted 500 or 1000 I could have got it" Judy said, " Voters don't like their choices withheld or hidden by elections officials in an American election. My God, what are we representing here to the Iraq people in championing fair elections and the peoples right to vote for a candidate when we fail our own example ?"* (printed media report)

The Respondents have failed to defend the rights of citizens of this state a choice, by manipulating choices of the people to cast a vote to elect. Respondents argument fails on it's face to overcome the overwhelming support of the **Affidavit of Voters**; this recognizes those who should have defended rights have become the perpetrators of the rights of the citizens and ought to be embarrassed of the facts they have represented in advertising a motion to dismiss the rights of citizens of this state to vote for the two candidates of this contest.

Cody Judy filed by mail a default petition to the United States Senate Rules Committee Chairmen who is in charge of: i.e. (4) Credentials and qualifications of Members of the Senate, **contested elections**, and acceptance of incompatible offices, in the lawful contest offices in Washington, DC. Bennett was served the petition lawfully at his Salt Lake City Office Building December 6th, 2004, and was required to file a response the Federal Court in a summons of **20 days**, and was **also required** to file a response with The U.S. Senate Rules Committee **and file an answer**

**with the contestant Challenger Cody Judy in 30 days with the U.S. Senate Rules Committee**  
governing ethics in the U.S. Senate and contested elections according to the law of Contested  
Elections. This he has failed to do.
